

7. How do I benefit as a home seller?

If you are looking to **sell** a home, you know that is very tough to find buyers in the current environment. Why not reach out to active buyers who are looking for just what you have to offer? Tell them all about your property's wonderful features, especially the ones that don't show up in a photo or a list of statistics. All communications are anonymous until everyone is ready to move forward. So, get in the driver's seat and find some Buyers!

Unlike most listing services, FindBuyers.com is absolutely free, and it is your choice whether to try "sell by owner" directly or work with an agent. Either way, you'll have the advantage of having your home matched up precisely to the criteria of buyers who are in the shopping mode.
